SHELTERS

MULTI PURPOSE. ADA COMPLIANT.

Economical Bus/Smoking Shelter

- Affordable multipurpose shelter for universities, hospitals and businesses.
- Designate outdoor smoking or waiting spaces.
- Provides weather protection and comfort for commuters, customers and employees.
- Practical and economical solution to accommodate smokers in outdoor spaces.
- Translucent, impact-resistant polycarbonate wall panels & roof.
- Sturdy 16-gauge, bronze powder-coated steel frames.
- Legs include surface-mounting plates.

Dome Roof Shelter – One Opening

- Shelter Dimensions: 10' x 5', 12' x 5', 15' x 5', 15' x 8'
- Structure Materials: Prefabricated aluminum, tempered glass & translucent acrylic dome.
- Provide secure waiting areas and cost-effective weather shields.
- Use as outdoor smoking shelters and provide a smoke-free workplace.
- Exceptional structural strength. Able to withstand 90 mph winds and snow loads up to 20 psf.
- Maintenance free aluminum framing with baked-on color finish. Aluminum back wall bench.
- 1/4" clear tempered safety glass. White translucent acrylic dome.
- ADA compliant. All openings are at least 36" wide and 84" high.

Recycled Plastic

- Shelter Dimensions: 10' x 7'.
- Structure Materials: Recycled plastic with stainless steel hardware included.
- Provide shade for your picnic table or bench.
- This recycled plastic structure is both attractive and useful.
- Surface mount installation on walkways, patios or any other cemented areas.
- Will not rot, rust, splinter or need paint.
- Easy to assemble with included stainless steel hardware.
- Available for surface mounting or inground mounting.
- Guaranteed against breakage for 50 years.
- 6 colour choices.

Flat Roof Shelter

- Shelter Dimensions: 10' x 5', 12' x 5', 15' x 5', & 15' x 8'.
- Structure Materials: Prefabricated aluminum & tempered glass.
- Choose from an open-front or 1 opening model.
- Install convenient ADA compliant passenger/transit shelters.
- Add a designated smoking area for visitors and staff.
- Designed for protection from weather conditions.
- Engineered to endure 90 mph winds and snow loads up to 20 psf.
- Pre-fabricated aluminum-framed, 1/4" clear tempered safety glass sections.
- Quick and easy assembly.
- Aluminum bench with back rest included.

PEDESTRIAN

KEEPING PEDESTRIANS FREE FROM HARM. HIGH PERFORMANCE SOLUTIONS.

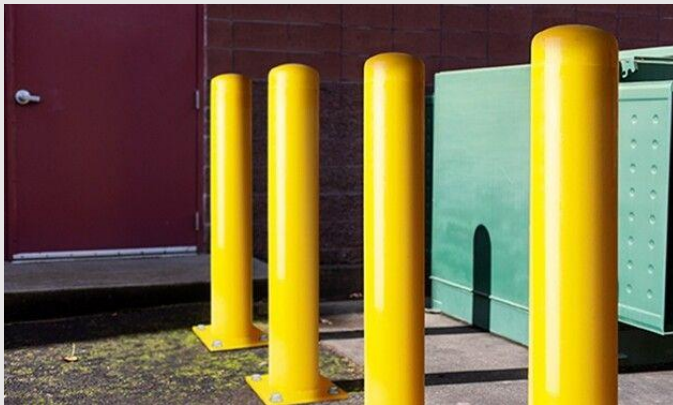

Flat Top Reflective Post Sleeves

- Material: Post sleeves that fit 4.5", 6.625", and 8.625" posts made from all-weather HDPE plastic. Post sleeves that fit 10.75" and 12.75" posts made with all-weather LDPE plastic. Wall thickness: 0.125".
- Fade-resistant - UV stable for over 5 years.
- Slides over existing posts - achieve a snug fit by adding 2 adhesive foam strips (included).
- Two (2) recessed reflective stripes - increases visibility, safety and prevents damages at night.
- High quality, all-weather plastic will not rust.
- Improve property appearance at a minimal cost.
- Sized to fit your posts. Sleeve height may be trimmed for custom fit.
- 12 colour choices.

Flexible Bollard – With or Without Sign.

- Heavy-duty steel spring provides 360° of flexibility.
- Bollard returns to original position after impact.
- Available for concrete, asphalt & natural ground installations.
- Flexible bollards look like solid posts, but flex on impact from any direction.
- High intensity reflective 3M tape provides 360° visibility of bollard.
- Rigid appearance deters most vehicle contact.
- 1-5/8" dia. galvanized signpost to hold traffic & parking signs.
- 9.5" sq., 7-gauge steel base plate with mounting hardware.
- Aluminum sign mounting bracket and hardware included - easily mounts 1 or 2 signs to sign post with no drilling required.
- 4 colour choices.

Bolt Down Metal Bollard

- Easy installation on concrete - no core drilling or excavation needed.
- Crafted from robust Schedule 40 steel.
- Welded-on cap provides extra durability.
- 1/2" thick base plate.
- Yellow powder coating provides lasting performance.
- Available in 3 sizes: 4" x 36", 4" x 42", or 6" x 42".
- Concrete anchor bolts and base plate sold separately.
- Impact tested for lifetime performance.
- 1-year warranty.

Spring Back Flexible Posts

- Material: Polyethylene.
- Height: 46".
- Hardware sold separately.
- High-visibility barriers direct and divert traffic.
- Multi-directional flexible posts bend and spring back upon vehicle contact.
- Ideal for parking lots, loading docks and parking garages.
- Tough, weather-resistant, high-density polyethylene with UV inhibitors.
- Large, engineer grade reflective bands and recycled rubber base with pre-drilled holes.
- Anchor for permanent or temporary use.

Site Furnishings & Drainage Solutions

PEDESTRIAN

KEEPING PEDESTRIANS FREE FROM HARM. HIGH PERFORMANCE SOLUTIONS.

Pedestrian Traffic Barrier

- Great safety barrier for events, foot traffic, crowd control, road and path closures, work zones, rerouting and more.
- Barrier features unique flat side which allows for better foot traffic on walkways without tripping hazards.
- Lightweight for easy loading and installation.
- Fill with water (400 lbs.) or sand (600 lbs.) for heavy-duty use.
- Nests for compact storage.
- Can be interlocked with molded connectors.
- Hollow, roto-molded portable barriers can be handled by one person.
- Constructed from high-impact, UV-resistant polyethylene.
- Alternate colours for higher visibility. Stripes sold separately.

Standard Barrier System

- Protect construction workers, motorists, pedestrians and crowds.
- Lightweight for easy loading and installation.
- Barriers nest for compact storage and link together when in use.
- Fill with water (400 lbs.) or sand (600 lbs.) for heavier or extended use.
- Can be equipped with flashers, signs and striped reflective markings (not included).
- Hollow, molded portable barriers can be handled by one person.
- High impact, UV-stabilized, roto-molded polyethylene.
- Alternate colours for high visibility.
- Large orders can take up to four weeks to ship.
- Left and Right barrier sheeting sold separately.

Black Base Traffic Cone

- Height Options: 18" (Case of 10), 28" (Case of 10), 36" (Case of 5).
- Mark hazards, direct traffic, indicate special routes, use at sporting events.
- Uniquely designed base absorbs impact, grips the road and will not easily blow over.
- Brilliant Fluorescent Orange colour attracts immediate attention.
- Optional high intensity reflective collars, meet MUTCD specifications and assure maximum day and night visibility (sold separately in set of two).
- Textured interior surface prevents stacked cones from sticking together.
- Premium grade 100% PVC cones with recycled PVC bases.
- Injection molded, superior one-piece design.

Retractable Cone Bar

- Extends to 10' and locks.
- Highest quality commercial grade ABS material.
- Used for: hazardous areas, utility or road work, construction sites, parking lots and controlled areas.
- Portable and lightweight cone bars set up in seconds...just drop ring over top of cones.
- Most efficient & cost-effective instant barrier available.
- Engineer grade reflective sheeting.

Site Furnishings & Drainage Solutions

SIGNAGE

PROPERTY, ACCESSABILITY, PARKING, TRAFFIC, COVID-19, SIGNPOSTS, SIGN BASES, AND CUSTOM SIGNAGE.

- Available in 3 materials
 - 24-gauge non-reflective steel is ideal for well-lit, protected areas that do not need reflectivity.
 - .080" aluminum with Manual of Uniform Traffic Control Devices (MUTDC) compliant engineer-grade sheeting is super-durable and will not bend or rust. Provides nighttime reflectivity up to 500 ft.
 - .080" aluminum with MUTCD-compliant high-intensity prismatic sheeting is super-durable and will not bend or rust. Provides nighttime reflectivity up to 1,000 ft.
- Includes 2 pre-drilled 3/8" mounting holes for easy placement.
- Signs have rounded corners for easy handling and a professional appearance.
- Rigid signs are durable for all-weather performance.
- 10-year warranty on all reflective signs.
- Mounting Hardware – 2" Square Post, U-Channel, Impact Resistant, and Structural Grade Recycled Plastic Square Posts.

Site Furnishings & Drainage Solutions

TRAFFIC

COMMERCIAL STRENGTH. KEEPING ROADWAYS, PARKING LOTS, AND GARAGES SAFER.

Premium Rubber Wheel Stops

- Rubber wheel stops with solid colour throughout.
- Break-thru chemical formula gives you the flexibility you want, the colours you need, and the durability you demand.
- Keep drivers from parking too close to buildings, curbs and other vehicles.
- Avoid the hassle, maintenance and heavy weight of concrete wheel stops.
- Molded-in, UV resistant colours.
- Guaranteed against breakage for 15 years.
- Length: 6 ft.
- Quick installation, rebar spikes sold separately.

Safety Striped Speed Bump

- Makes parking lots safer for pedestrians.
- Built-in reflectors provide greater safety and visibility.
- Purchase and use of end caps (sold separately) with speed bump is required for product guarantee.
- Multiple lengths available.
- Channeled bottom allows for cabling or piping and facilitates draining (two 1" dia. channels).
- Rugged recycled rubber conforms to pavement.
- May be removed and re-installed for road maintenance.
- Will not fade, rot or corrode. UV stabilized.
- Guaranteed against breakage for 15 years.

Standard Speed Hump

- Material: 30% recycled rubber.
- Length Options: 6.5 ft, 9.5 ft, 14.5 ft, 19.5 f, or 22.5 ft.
- Slows vehicles to 15-20 mph.
- Ideal for residential streets, parking facilities, construction zones and pedestrian areas.
- Popular 2" high mid-sized speed humps.
- All rubber construction with molded yellow rubber for visibility.
- Simple to install, long-lasting and environmentally friendly.
- Rubber humps adapt to uneven surfaces.
- Removable for storage or relocation.
- Guaranteed Against Breakage for 15 Years.

Stripe-Rite Parking Lot Striper

- Large capacity machine holds up to 12 cans of paint.
- Creates sharp 2" - 4" wide lines with one pass coverage.
- Parking areas need striping every year to maintain color and visibility.
- Easy-to-use on asphalt, concrete, or turf.
- Also perfect for warehouses, running tracks, and playgrounds.
- Paint sold separately – Black, blue, red, white, and yellow.
